Professional Summary

Engineering Computer Science graduate with strong foundations in software development, databases, and IT systems. Experienced in building web applications and small-scale technical systems using Python, JavaScript, and SQL. Currently focused on developing skills in IT Infrastructure, Systems Administration, and Technical Operations through academic projects and hands-on exposure. Seeking opportunities in IT Support, IT Operations.

Education

Bachelor of Science in Computer Science

Arab Open University | Graduation: May 2026

Relevant Coursework: Software Development, Data Structures & Algorithms, Database Systems, Statistics & Probability, Discrete Mathematics, Calculus

Work Experience

IT Infrastructure & Operations Trainee — Saudi EXIM Bank

Feb 2026 – Present · Riyadh, Saudi Arabia · On-site

Cooperative Training (General Directorate of Information Technology – IT Infrastructure & Operations)

- Gaining hands-on experience in enterprise IT infrastructure within a banking environment
- Supporting IT operations, system stability, and service availability across technical environments
- Assisting in troubleshooting and resolving technical incidents under IT support workflows
- Developing practical understanding of infrastructure support, IT operations, and enterprise system management

Sales Associate — Apparel Group

Nov 2021 – Jul 2022 · Riyadh, Saudi Arabia · On-site

- Supported daily store operations using POS systems and customer service tools
- Resolved customer issues efficiently, strengthening problem-solving and communication skills
- Collaborated with team members to improve service quality and operational workflow

Technical Skills

IT & Systems:

IT Troubleshooting, Operating Systems, System Fundamentals, Networking Basics (TCP/IP, DNS, DHCP)

Data & Analytics:

SQL, Excel, Power BI

Tools & Platforms:

Git (Basic), Visual Studio Code, Unity

Cloud & Certifications:

Microsoft Azure AI Fundamentals (AI-900)

Technical Projects

AOU Study Tracker — AI-Powered Student Learning Platform (Graduation Project)

Python (Flask), Node.js, Express.js, MongoDB, JavaScript, Pandas

- Developed a full-stack educational platform to help students prepare for exams
- Implemented AI-powered question generation system and question bank management
- Built RESTful APIs for subject management, progress tracking, and data handling
- Integrated Excel import functionality for large question datasets
- Designed system architecture using Flask backend and Node.js services

Certification

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Women Elevate Program (Microsoft, UNESCO, SDAIA, ICAIRE)

Activities

AI Club — Arab Open University Participated in AI workshops and academic projects

Cybersecurity Club Contributed to awareness campaigns and design activities

Computer Club — AOU Received Certificate of Appreciation for active participation
